Business and Residential Notice

Distribution Date: May 24, 2011

Eloika Lake will be treated with the aquatic herbicide(s)/algaecide(s) on June 6, 2011 or between June 1 and June 30, 2011.

Product(s) planned for use: Reward, DMA-4-IVM, Glyphosate 5.4, and Ecomazapyr.

Active ingredient(s): Diquat dibromide , 2,4-D amine, glyphosate and imazapyr

Targeted plants are Eurasian Watermilfoil and curly-leafed pondweed for the diquat and 2.4-D. Yellow flag iris and watersheild (Brasenia) for the glyphosate and imazapyr.

Location of Treatment(s): Known locations determined by surveys around the perimeter of the lake.

Treated and potentially affected areas will be sign posted within 48 hours prior to or the day of the application. The signs will describe any water use restrictions or advisories.

If you are withdrawing water for potable or domestic water use, livestock watering, or irrigation, and have no alternate water source, please contact the applicator Lakeland Restoration Services to arrange an alternate water supply. Contact information is shown above.

If you would like to request additional notification prior to treatment, or have further questions, please contact me using the information above.

This herbicide treatment is regulated under a permit issued by the Washington State Department of Ecology, WAG 994172.
